

FTP sampler:

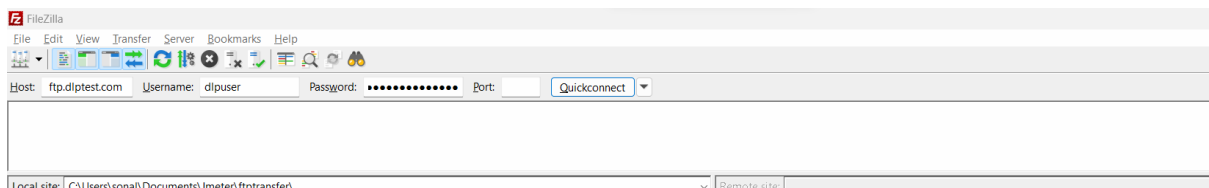

Download FileZilla Client

The screenshot shows the FileZilla Project website homepage. The browser's address bar displays 'filezilla-project.org'. The page features a large 'FileZilla' logo with the tagline 'The free FTP solution'. A left sidebar contains navigation links for Home, FileZilla (with sub-links for Features, Screenshots, Download, Documentation, and FileZilla Pro), FileZilla Server (with a Download link), Community (with links for Forum and Wiki), General (with links for FAQ, Support, Contact, License, Privacy Policy, and Trademark Policy), and Development (with links for Source code, Nightly builds, Translations, Version history, and Changelog). A 'Promotion' banner for 'FileZilla Pro' is visible, stating 'The Best FTP Solution'. The main content area is titled 'Overview' and contains the following text: 'Welcome to the homepage of FileZilla®, the free FTP solution. The *FileZilla Client* not only free of charge under the terms of the GNU General Public License. We are also offering *FileZilla Pro*, with additional protocol support for WebDAV, Amazon Storage, and Google Cloud Storage. Last but not least, *FileZilla Server* is a free open source FTP and FTPS Server. Support is available through our [forums](#), the [wiki](#) and the [bug and feature request track](#). In addition, you will find documentation on how to compile FileZilla and nightly builds for...'. Below the overview text is a section titled 'Quick download links' with two buttons: 'Download FileZilla Client' and 'Download FileZilla Server', both labeled 'All platforms'. At the bottom, a partial sentence reads: 'Pick the client if you want to transfer files. Get the server if you want to make fil...'.

FTP server details:

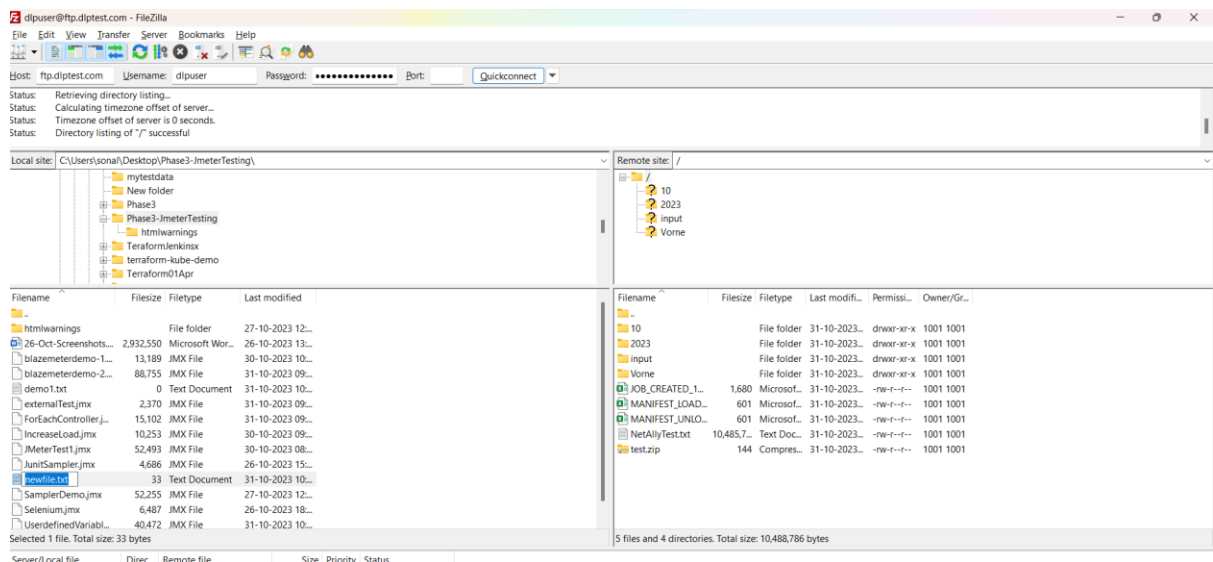

Give details in FileZilla

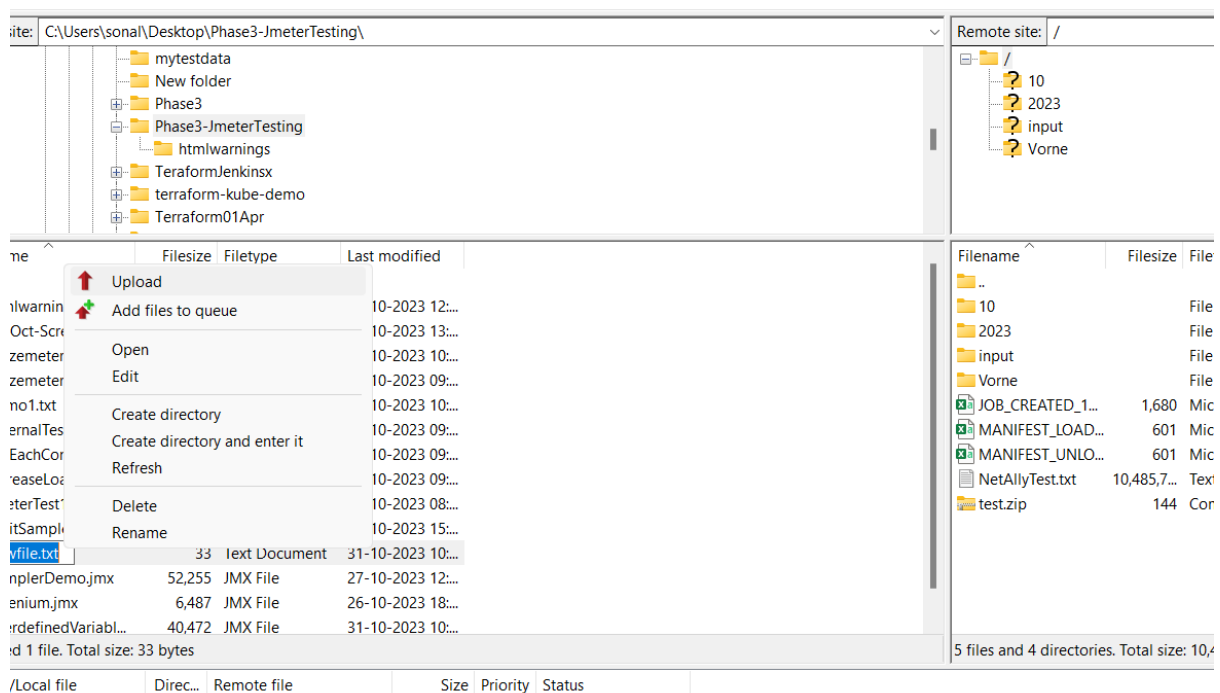

Create file in any folder on your machine

Now in FileZilla you will find your file in the folder
